

THE COLORADO DIVERSITY NETWORK SPRING WORKSHOP 2024

UnConference: From Intention to Action

Senior Judge Regina Walter is the founder of Diversity University and Educating Children of Color, Inc. Judge Walter works tirelessly to bring community together and to eliminate disparate outcomes for children of color and children in poverty through education. In January of 2008, she initiated the first Educating Children of Color Summit. Regina Walter has provided approximately 2000 hours of diversity, equity and inclusion training to various organizations locally and nationally.

We are honored to have Regina Walter as our keynote speaker as well as a facilitator during the Un-Conference portion of our program. Participants will have the chance to collaborate on an action plan, or bring ideas, questions, concerns and top-of-mind topics to other participants. This is a time to connect and hear strategies, struggles and successes from other CDN schools.

Date: Friday, April 5, 2024
