Settle in, pour yourself the drink of your choice, have a supportive conversation, and don't worry about driving home.

Now, more than ever, we are committed to our mission of providing professional development and networking opportunities for educators across Colorado focused on issues of Equity, Inclusion, and Diversity.

We welcome you to join us for our Spring Networking Session, where we'll gather to discuss our experiences (particularly since January), ask questions and lean on each other in honor of the indispensable work that we do to support our school communities.
