

**Topic:** Build your school's tech leadership with ATLIS 9ine Academies

**Header:** Advance your team's skills with deep dives in IT operations, AI, and school data strategy

**Description:**

ACIS is proud to partner with the Association of Technology Leaders in Independent Schools (ATLIS) to offer your school exclusive access to two targeted professional development programs this fall - both designed in collaboration with 9ine, a leading global education consultancy.

Whether you're focused on operational excellence or navigating the complex landscape of AI and data privacy, these academies provide the tools and frameworks you need. These cohort-based programs are hands-on and are designed to support your school with practical application as you participate. All materials are developed specifically for independent schools.

**Special Discount for Our Members:** If you are not currently an ATLIS member, use this code at checkout to receive \$200 off your registration for either program:

[ACIS-25-CyberPartner]

About the programs:

**9ine Tech Academy**

**Dates:** January - May, 2026

**Format:** Cohort-style program with monthly virtual modules and hands-on deep dive accompanying work

**Audience:** IT managers, system administrators, technology leaders

**Overview:** Gain in-depth and hands-on experience in school IT service management, system oversight, and asset control. Offered in partnership with ATLIS and 9ine, this program prepares you to run a secure and efficient technology operation, with stronger, more secure systems.

## **9ine AI & Privacy Academy**

**Dates:** November 2025 - July 2026

**Format:** Cohort-style program with monthly virtual modules and scenario-based learning.

**Audience:** Technology leaders, data protection officers, academic administrators, and staff managing data and AI

**Overview:** Explore how to lead AI integration and uphold student privacy in your independent school. Offered in partnership with ATLIS and 9ine, this program focuses on data privacy, compliance, and ethical AI governance. It includes templates, checklists, and expert-led sessions tailored for schools navigating emerging tech.
